

Don't keep treating your
hemorrhoids.
Remove them.

Say goodbye
to hemorrhoids

"After suffering years of discomfort I feel like a new woman. Thank you for making such an amazing difference in my everyday life."

"The procedure was not only painless but it put an instant end to my discomfort. I'm just sorry I didn't do it sooner."

Call your doctor today!

The CRH O'Regan System® may not be appropriate for all patients. You and your physician will determine an appropriate treatment for your diagnosis during your examination.

The CRH O'Regan System® is a product of CRH Medical Corporation

CRH O'Regan System®

Non-Surgical Hemorrhoid Treatment

Fast. Painless. Proven.

www.crhssystem.com

No more suffering in silence.

No more messy ointments, creams or suppositories.
No need for painful or complicated procedures. We use the proprietary CRH O'Regan System® which doesn't require surgery or recovery time.

Hemorrhoids will affect 75% of the population at some point in their lives. Other banding techniques use metal clamps to grasp the hemorrhoid, which can be painful. We use a smaller, gentler, single-use and disposable suction device to minimize discomfort and complications.

- ✔ Quick, effective & painless
- ✔ No prep, no sedation
- ✔ Return to work the same day

Procedure	Average Procedure Time	Average Time Off Work	Pain Medication Required Pre/post
CRH O'Regan System®	30 Seconds - 1 Minute	0-1 Day	No
Conventional Rubber Banding	5-10 Minutes	0 - 3 Days	Often Prescribed
Infrared Coagulation	30 Seconds - 3 Minutes	0 - 1 Day	Yes
Stapled Hemorrhoidectomy	15 - 90 Minutes	1 -10 Days	Yes
Conventional Hemorrhoidectomy	45 - 90 Minutes	10 - 14 Days	Yes

There are many causes of hemorrhoids, including constipation, pregnancy and heavy lifting.

"I went home, had a normal day and definitely feel more comfortable."

End your symptoms in as little as 60 seconds.

The CRH O'Regan System® is a simple, painless and highly effective procedure (99.1%) that can be performed in less than a minute. How simple is it? Our physician will place a tiny rubber band around the base of the hemorrhoid. The banded tissue then shrinks and falls off within day or so, usually without you noticing. And that's it. Once the hemorrhoid is treated, so are your symptoms!

Save your sick days for something else.

The use of the CRH O'Regan System® results in the lowest incidence of pain of any of the non-surgical hemorrhoid treatments. In fact, most are able to return to work the same day. Don't keep treating your hemorrhoids with messy creams and ointments. Take care of them permanently!

The CRH O'Regan System® is the "Gold Standard" for banding and has a less than 1% complication rate.
